

Season 4 Episode 12

Total Whiteout

Mason is in his lab at nighttime pointing a telescope and looking at things in the city. Jason enters the lab and cracks open an orange soda. Jason said, "I don't think you will see any stars out tonight or any night in this city." Mason said, "I am not stargazing. I am watching the city landscapes. I built this new telescope to accurately pinpoint things in the city. I can closely zoom in on things going on in the streets." Mason gets a view of people walking down the street past a jazz player playing a saxophone. Jason said, "Eh, since when does anything interesting ever happen in the city?" Mason said, "Do you remember all our adventures? They pretty much always happen because of some odd thing going on in our city." Jason thinks for a sec and he said, "Eh."

Mason spots a shiny gold and red object that looks like a magic genie's lamp sitting on the roof of a building completely unattended. Mason said, "What's this?" Jason said, "It is probably just some useless crap that someone forgot on their roof." Mason said, "It looks highly detailed and it looks precious and valuable. It is on the roof and there does not seem to be anything else around it. It is as if it holds some kind of secret to something. This could be linked to a crime. I will go check it out." Jason said, "You have always been the one to put yourself through wild goose chases." Mason said, "This is something that could determine the fate of the world. I think that is worth checking out. There are all kinds of things we came across that could spell certain doom for the people of the world if it falls into the wrong hands."

Mason walks into a back alley and he uses his harpoon gun to connect to the roof of the building and Mason zips up there. Mason walks up to the red and gold shiny object. Mason looks at it and he said, "It is beautiful. It looks like it has some kind of sacred quality to it. Something is clearly up." Mason walks up to the object and he touches it. His vision flashes into a plethora of psychedelic colors and objects. Some of them are 3D objects that look like creepy early CGI. Mason looks at all this and it suddenly dies down to nothing and Mason's world goes all white and completely lacking of any kind of detail where everything is just rough outlines.

Mason rubs his eyes and he said, "What just happened? Why is everything all white and lacking detail?" Mason walks forwards and he walks off an edge and he falls and hits a balcony and bounces off it and he falls and hits another balcony and he eventually falls and smashes on the ground. Mason gets up and he said, "Where am I?" Mason walks around and he sees white humanoid figures walking around and interacting with other white figures and things. Mason wanders around in this and a large white rectangle drives to Mason and stops in front of him. Mason stays in place and he scratches his head. Mason is standing in the middle of the road and a car is stopped in front of him. People on the street are watching Mason and the car.

A white humanoid figure gets out of the rectangle and he pushes Mason aside. Mason gets up and he walks up to the humanoid. Mason said, "Can you tell me where I am?" The humanoid said, "Get off the road jerk face!" Mason said, "Road? This is a road?" The humanoid said, "Are you blind and stupid?" Mason said, "I am blind right now but I am not stupid." The humanoid said, "You've had it." The humanoid grabs onto Mason and he throws Mason into the crowd of people on the sidewalk. Mason gets up and the humanoid blends in with all the other humanoids. Mason walks down the plain white world and the humanoids run away from Mason. Mason yells, "Help! Where am I!"

Police show up and they grab onto Mason's arms. Mason views them as being more plain white humanoids. Mason said, "What is happening?" One of the cops said, "You are coming with us." Mason said, "This is probably it. This must be the plot from some kind of villain. This villain must have done this to me and now he has sent his thugs to detain me." Mason smacks down one of the plain white cops and he runs away. Mason runs down the street and rectangles chase after Mason. Mason runs and hides behind a plain white tower.

Jason is in Mason's lab at Mason's TV playing a video game and the game is interrupted by DDD News. Jason said, "Dammit. Why did Mason have to mod the lab TV so it is constantly interrupted by DDD News every time some stupid thing happens in the city?" George Ferrier appears on the screen and he said, "Hello, I am George Ferrier here with DDD News. The streets of San Francisco are in chaos as our local inventor, Mason has been spotted causing chaos in the streets." Jason's eyes go big. George continues, "Mason has been rampaging in the streets. The police are on to him. We advise for all of you to stay in your homes and if you see Mason anywhere around, call 911."

Mason uses his harpoon gun and he zips to the roof of a plain white tower. Mason runs and jumps the gaps between the series of towers. Flying rectangles fly

after Mason and they start firing small white triangles at Mason. Mason dodges the white triangles. Mason jumps and attempts to dodge one of the triangles while jumping between towers and he misses the next tower. Mason falls and he grabs onto a white platform sticking out of a building. Mason climbs down back to the ground.

Jason is riding in the Fusion Mobile while Captain Fusion is driving down the streets of San Francisco. Captain Fusion uses scanning technology in the main computer in the Fusion Mobile to scan the streets of San Francisco. Captain Fusion said, "Mason must be on one of these streets." Jason looks out his window and he sees Mason in a back alley. Jason said, "I see him."

Captain Fusion and Jason go to the back alley and they confront Mason. Jason said, "Mason. It is us." Mason sees Jason and Captain Fusion as plain white humanoids with voices coming out of them. Mason said, "Who's us?" Captain Fusion said, "Mason, I am Captain Fusion. This is Jason next to me. What is going on with you? You are the most wanted man in the city right now. What is the last thing you remember?" Mason said, "I touched that red and gold shiny object and it made my vision stop functioning. Everything is just plain white and has outlines. Everyone is trying to attack me." Captain Fusion said, "Mason. We are your friends. Do you remember where this shiny object is?" Plain white humanoids come pouring in from behind Captain Fusion and Jason. They jump on Mason and they handcuff him and they throw him in the back of a police truck. Mason is detained in a plain white prison cell where he is locked in with plain white rectangles.

Jason and Captain Fusion are in Mason's lab and Captain Fusion is looking at the city using Mason's telescope. Jason said, "Mason was overly fascinated by some red and gold shiny object he spotted on the roof of a building." Captain Fusion said, "I think I see it. It is suspicious and it is standing there alone. We must investigate this. Get suited up in a Fusion Hazard Suit. We don't want to end up blind like Mason."

Mason lies down on a white board in the plain white prison. Mason sees someone that is not a plain white humanoid. He sees a round headed figure with large eyes wearing a detective's hat with horns sticking out and a suit with a tie. Mason looks at him and he said, "Who are you?" The thing said, "I am Mind Sleuth. You must be Mason. I have been looking for you." Mason said, "Is this part of some plot?" Mind Sleuth said, "This is part of a plot alright. You have been attacked by a Mind Demon." Mason said, "A Mind Demon?" Mind Sleuth said, "Mind Demons are creatures that exist in a mental metaphysical realm. There are all kinds of Mind Demons and they are capable of inflicting all kinds of mental damages. Mind Demons live off causing mental pain and misery to people they attack. It causes them to level up which causes them to

evolve and develop into something more. They can even evolve to a point where they can form themselves into a more humanoid form and eventually leave the confines of the mental realm and end up in the physical realm.”

Mason said, “How do you know all this?” Mind Sleuth said, “I myself am one of these, Mind Demons. I began just like them where I did not have any kind of humanoid appearance and I attacked the minds of people on the Mind Demons’ hitlist. We Mind Demons usually attack people of significance. It is usually people with powerful minds so it would make us earn tons of points towards evolution. You have the most powerful mind known to us Mind Demons. That is why they attacked your mind. Mind Demons are capable of altering peoples’ vision in various ways. They can make people see things that aren’t really there. In your case, it appears as if they gave you severe prosopagnosia.” Mason said, “You said you were one of these demons?” Mind Sleuth said, “I attacked powerful minds simply because it was what was expected for me being a Mind Demon. I knew it was cruel and inhumane. I still did it anyways with the intent of evolving. Once I evolved into something more, I would find ways to turn against the Mind Demons and help make them extinct. I have evolved to a point where I have a mental humanoid form but I still have a ways to go before I can have a true physical form. I know I will end up dead when the Mind Demons become extinct. I think it would be for the better so I won’t have to live off the suffering of other people.”

Mason said, “Let me get this straight. You have a humanoid form and you can only be seen by me right now?” Mind Sleuth said, “Yes. I can visit other people’s minds as they are being attacked thanks to my current evolution level. I cannot interact with the world around you but I can see the world around you. It looks as it is supposed to. Let me be your guide. You are the only one that can interact with the world on my behalf.” Mason said, “Maybe you can get me out of this mess. How do we defeat these Mind Demons?” Mind Sleuth said, “Well you see, even though the Mind Demon that attacked you cannot make himself into any kind of humanoid, he is still capable of using his powers to create physical objects to serve as a means of establishing a connection between you and the Mind Demon. This Mind Demon created a shiny object with hypnotic powers that works on strong minded people. It is possible for you to find this object and destroy it to sever the connection this Mind Demon has with you.” Mason said, “How would that save me?” Mind Sleuth said, “You see, low evolution level Mind Demons can only interact with other Mind Demons from their realm. The Demon that is attacking you right now exists in the Mind Demon realm. That shiny object is the satellite receiver that has a mental connection with your mind. I know how to destroy it. I will show you to that.” Mason said, “That’s good but how do we get out of here?” Mind Sleuth said, “These jail cells always have a hidden secret exit that can be triggered by hitting a particular brick.” Mind Sleuth looks at the wall and he points to a brick and he said, “Here. Hit this one.” Mason hits the brick and a secret door opens revealing the outside world. Mind Sleuth said, “Come with me.”

Jason and Captain Fusion are in Fusion Hazard Suits and they examine the shiny object. Captain Fusion scans it with a handheld device. Captain Fusion said, "This thing does not appear to be emitting any kind of energy signatures. It is as if it is just a decorative object with no purpose other than to be cosmetically appealing."

Mind Sleuth runs down the plain white streets while Mason follows him. Mind Sleuth said, "We must run. It will only be a matter of time before they..." A police megaphone says, "This is the police! Stand down or we will use force!" Mind Sleuth said, "Come with me." Mind Sleuth runs between two towers in an alley way. Mind Sleuth said, "This looks like a decent shortcut." Mason and Mind Sleuth run out the other end of the alley and they see more police forces heading for them. The police have robot battle mechs (similar to the one Mason has) and they start firing plasma shots and heat seeking missiles at Mason. Mind Sleuth said, "These cops really love using excessive force." Mason and Mind Sleuth run forwards and they come across another massive crowd of police forces with armored battle trucks and robot mechs. Mind Sleuth gulps and Mason slowly walks back as they are completely surrounded by police forces.

Jason and Captain Fusion are on the roof studying the object and they hear sounds of action going on in the city. Jason looks over the edge of the building and down at the city and said, "It looks like there is something going on in the streets." Captain Fusion said, "We better check it out. Something tells me we are not going to get anything more out of this thing."

Captain Fusion drives in the Fusion Mobile and they see Mason through the barricade of police forces. Jason said, "What are we going to do?" Captain Fusion said, "As the mayor of this city, I am permitted to use excessive force just as much as the police are." Captain Fusion revs his engine and he drives through the police forces and the ground units run out of the way. Captain Fusion drives up to Mason. Mind Sleuth looks at the Fusion Mobile and he sees a door open on it. Mind Sleuth said, "Ah, it is Captain Fusion and his sidekick, Jason. You should get in. It would be safer." Mason jumps in the Fusion Mobile and the door closes on it. The police mechs open fire on the Fusion Mobile. The Fusion Mobile drives off as plasma shots and heat seeking missiles are poured out onto the Fusion Mobile. The mechs run fast and they use rocket boosters in their feet to dash close to the Fusion Mobile. Captain Fusion said, "Jason. Activate my cable weapon." Jason presses the cable weapon activation button on the front dashboard of the Fusion Mobile. A cannon is extended from the roof of the Fusion Mobile. Jason uses a targeting computer and he fires out cables and they tie up the police mechs. The police mechs are left useless as they are tied up.

Mason looks dazed and confused as he sits in the back of the Fusion Mobile. Mason said, "Mind Demons." Jason and Captain Fusion say, "Mind Demons?" Mason said, "Mind Demons did this to me. We can make this Mind Demon lose its connection to my mind if we destroy that shiny object." Captain Fusion said, "So that object does serve a purpose. It must be on some sort of frequency that my gadgets cannot detect. I will take us there..." A police mech jumps out in front of the Fusion Mobile from nowhere. It grabs onto the front of the Fusion Mobile and it lifts it up. It rips the doors off it and Jason, Mason, and Captain Fusion fall out of the Fusion Mobile. The mech grabs onto Jason and Captain Fusion and it does not have enough arms to grab Mason. Mind Sleuth is next to Mason and he points upwards to the white tower with the object on the top. Mind Sleuth said, "It is this one." Mason takes out his harpoon gun and he connects it to the roof and he zips up to the object. Mason looks at the object and he said, "What do we do now?" Mind Sleuth said, "Destroying it will end the connection and your mind will return to normal." Mason grabs onto the object and he holds it in his grasp. Mason sees Jason and Captain Fusion get arrested and he hears one of the cops say to another cop, "Have you spotted Mason?" The other cop said, "He ran away." The other cop said, "When we get our hands on that Mason, he is going away for a long time for this infamous crime."

Mason hesitates as he has a tight grip on the object. Mason said, "I'm a criminal. Jason and Captain Fusion are getting treated as criminals too." Mind Sleuth said, "Well, unfortunately, there is nothing we can do about that." Mason said, "You said there are other kinds of Mind Demons?" Mind Sleuth said, "Yeah, there are others." Mason said, "Can we communicate with them using this thing?" Mind Sleuth said, "It is possible to use it as a communication system. What do you have in mind?" Mason said, "Maybe I can clear my name and Jason and Captain Fusion's names too. We just need to unleash a Mind Demon on these cops and city people and they will think everything that has happened tonight was all in their minds." Mind Sleuth said, "That's a great idea. You catch on fast. There are types of Mind Demons that are capable of creating images in peoples' minds of things that are not there. You would have to communicate by pressing certain parts of that object. Let me show you." Mind Sleuth points to certain parts of the object and he said, "Press there then rub here and pat there and then..."

Mason goes to the ground and he utilizes the object and he sends a Mind Demon that impacts all the cops and people in the street. It causes them to get visions of an army of Jasons, Masons, and Captain Fusions rampaging through the street and destroying property and causing chaos. The cops take out their guns and they start firing at the Jasons, Masons, and Captain Fusions but they are really shooting at nothing and they miss. The mechs go after the false visions and they end up destroying part of a building and the building crumbles and crushes the mech. The police forces

try to put up a fierce fight with their false visions and at the height of all the chaos, Mason smashes the object to the ground and it shatters into small thin sharp remains.

The visions disappear and Mason's vision returns to normal. One of the cops said, "What just happened?" Another cop said, "It appears as all of this was just some delusion." Jason said, "Yeah. We are not criminals. It was all in your minds." The cop said, "Well, I guess you are free to go then since you clearly did nothing."

Jason, Mason, and Captain Fusion are in Mason's lab watching DDD News. George Ferrier appears on the screen and he said, "Hello, George Ferrier here of DDD News. It seems the entire city of San Francisco had psychotic false visions of Jason, Mason, and Captain Fusion rampaging through the city. These false visions were so powerful and so seemingly real that one of our news cameras was fooled by this too and got footage of Mason rampaging through the street. This has all turned out to be fake. Jason, Mason, and Captain Fusion are innocent again and Captain Fusion may resume being the mayor of this awesome city."

Jason said, "You said these things are, 'Mind Demons' and there is one of them with you right now?" Mason said, "He is next to me. He told me how to sever ties with the Mind Demons and how to clear my name." Mind Sleuth is next to Mason and he said, "Well, that was your idea." Captain Fusion said, "This Mind Sleuth is a hero if what you tell us is true." Mind Sleuth said, "Don't thank me all at once." Mason turns to Mind Sleuth and he said, "Thank you, Mind Sleuth for your help. I think these Mind Demons have strong potential to become some of the most powerful villains we have come across." Mind Sleuth said, "You've said it. I must be on my way now. Right now as we speak, there are tons of these Mind Demons and they are attacking innocent people. They don't just strike in this universe. They strike in other universes all over the Ultraverse. I must be off to continue my battle against these things. I may get you to help me in my future battles. I will be off now." Mind Sleuth rips a hole in a non-existent wall and he jumps through it. Jason said, "What did he say?" Mason said, "We might have yet another war on our hands."
